

Threads

Thread Examples

Pthreads:

```
pthread_attr_init(&attr);  
pthread_create(&tid, &attr, sum, &param); // thread runs sum
```

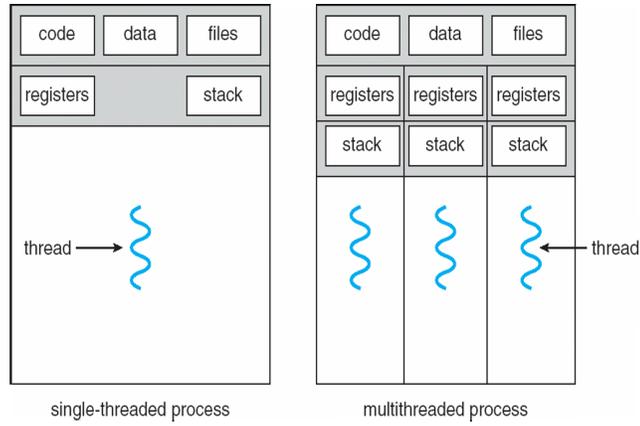

Win32 Threads:

```
ThreadHandle = CreateThread(NULL, 0, Sum, &Param, 0, &ThreadID);
```

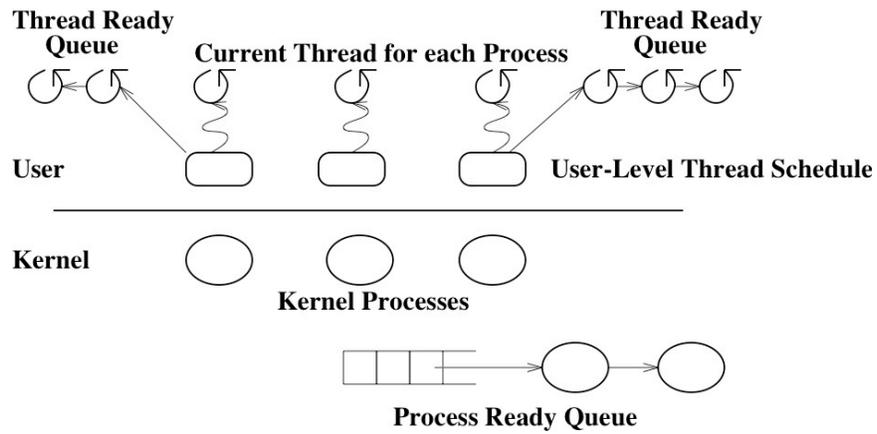

Java Threads:

```
Thread t = new Thread(new Summation(param));  
t.start(); // start the thread running Summation.run()
```

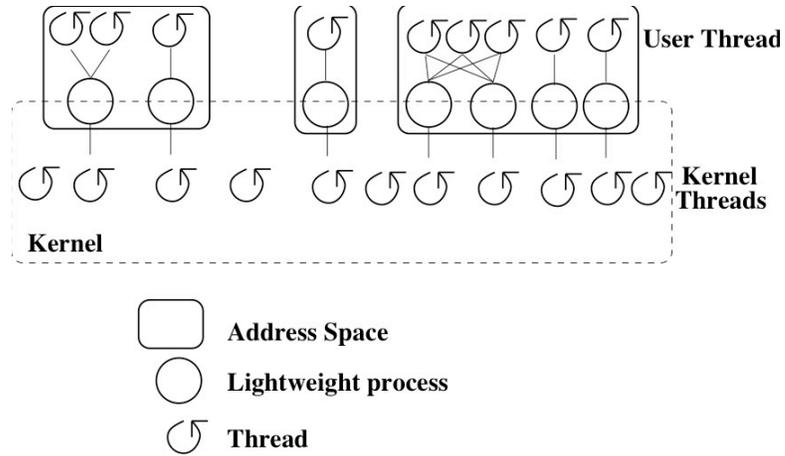

Multithreaded Processes

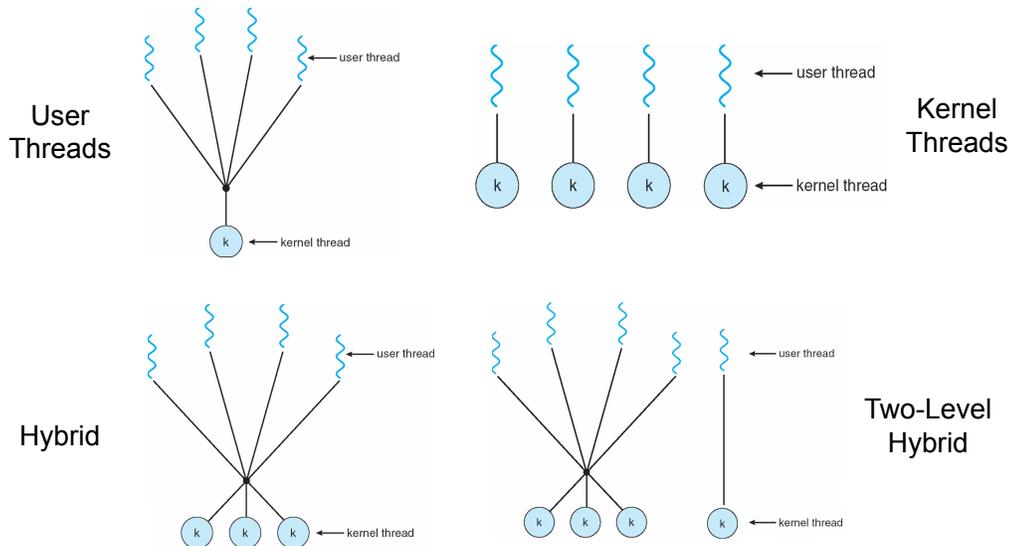

User-Level Threads

Lightweight Processes

Threading Models

Thread Examples

Pthreads:

```
pthread_attr_init(&attr);  
pthread_create(&tid, &attr, sum, &param); // thread runs sum
```

Win32 Threads:

```
ThreadHandle = CreateThread(NULL, 0, Sum, &Param, 0, &ThreadID);
```

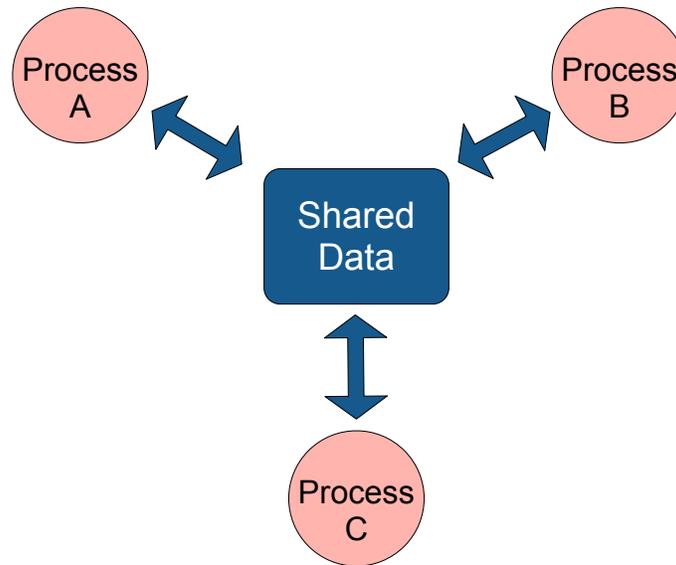

Java Threads:

```
Thread t = new Thread(new Summation(param));  
t.start(); // start the thread running Summation.run()
```

Threads Summary

- Threads vs processes
- User-level and kernel-level threads
- Thread interfaces vs implementations

Process Synchronization

ATM Example

```
// get funds in account
int total = get_account_total();

// get amount to withdraw
int withdraw = get_withdraw_amount();

if (total >= withdraw) {

    // withdraw funds from account
    total -= withdraw;
    update_account_total(total);
    dispense_money(withdraw);

}
```

Too Much Milk

Time	You	Your Roommate
3:00	Arrive home	
3:05	Look in fridge, no milk	
3:10	Leave for grocery store	
3:15		Arrive home
3:20	Arrive at grocery store	Look in fridge, no milk
3:25	Buy milk	Leave for grocery store
3:35	Arrive home, put milk in fridge	
3:45		Buy milk
3:50		Arrive home with milk
3:50		Too much milk!

```
if (noMilk) {  
    buy milk;  
}
```

```
if (noMilk) {  
    buy milk;  
}
```

Too Much Milk: Solution 1?

Thread A

```
if (noMilk & NoNote) {  
    leave note;  
    buy milk;  
    remove note;  
}
```

Thread B

```
if (noMilk & NoNote) {  
    leave note;  
    buy milk;  
    remove note;  
}
```

Too Much Milk: Solution 2?

Thread A

```
leave note A;  
if (noNote B) {  
    if (noMilk) {  
        buy milk;  
    }  
}  
remove note A;
```

Thread B

```
leave note B;  
if (noNote A) {  
    if (noMilk) {  
        buy milk;  
    }  
}  
remove note B;
```

Too Much Milk: Solution 3?

Thread A

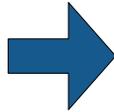

```
leave note A;  
while (note B) {  
    do nothing;  
}  
if (noMilk) {  
    buy milk;  
}  
remove note A;
```

Thread B

```
leave note B;  
if (noNote A) {  
    if (noMilk) {  
        buy milk;  
    }  
}  
remove note B;
```

Critical Sections

**Critical
Section**

```
...  
arriveHome();
```

```
if (noMilk) {  
    buy milk;  
}
```

```
makeCoffee();
```

```
...
```

Requirement of **mutual exclusion**
